

# FMS/Cargill Re-engineers Flagship Product In Record Time

FMS/Cargill success story using PlatformPlus

## The Challenge.

### Existing:

FMS wanted to expand beyond the U.S., but its current technology was not global-deployment-ready and expensive to support.

### Required:

FMS needed to modernize their core application to handle thousands of global transactions.

## The Approach.

FMS/Cargill worked with Modularis to set a course and nail down the design before developing the new system using Accelerator.

### 360 Technology Review & Technology Roadmap Session

1 WEEK  
with Executive Team

### Product Design Session

1 WEEK  
with Product Team

### Modularis Accelerator

PLUS OUR  
Advisory Team Oversight

## The Outcome.

In addition to being on-time, on budget and in-scope, the new Feed Mill Manager achieved the following:

New system opened international markets.

Led to Cargill acquisition of FMS.

ROI achieved in 6 months.

*"Adopting Modularis as our development platform allowed us to bring a new, robust product to market in a very short time frame."*
